PROFILE

Technology-driven problem solver building scalable, secure and automated systems, with a growing focus on AI agents that get things done. Founder of OLATECH Solutions, AI and Python intern, hackathon builder, conference speaker and co-founder of the Xtructure developer community.

EXPERIENCE

AI Intern · Decode Lab — 2026
Hands-on AI projects with mentor guidance, working across the AI product lifecycle.

Python Developer Intern · Redynox — 2026 (4 weeks)
Production-minded Python under supervisor Amit Sharma, with a focus on debugging, documentation and disciplined Git workflows. Completed with a Letter of Recommendation.

Founder · OLATECH Solutions — 2026 – Present
Cloud-native, DevOps and cybersecurity solutions for startups and enterprises.

PROJECTS

VeraMove · AI voice agent — Hack-Nation Global AI Hackathon
Voice agent that calls, compares and negotiates moving-service quotes. Built with a 4-person team across 4 time zones (5,500+ applicants, 125 countries, with MIT Sloan AI Club). Coordinated async work across data, voice and frontend.

OLATECH Cloud Automation Suite — Docker · Terraform · AWS
End-to-end CI/CD automation with Docker, Terraform and GitHub Actions for repeatable deployments.

Cyber Secure Monitor — Python · Flask · MongoDB
Real-time vulnerability monitoring and security logging tool.

AI & Early-Stage Entrepreneurship · Research — 2026
Postgraduate research on AI adoption barriers and the digital skills gap among SMEs (OECD 2025 data).

SPEAKING & EVENTS

AI Agents & Agentic Frameworks · Acadademy Tech Cohort — May 2026
Speaker. Taught the shift from AI that talks to AI that acts.

AI in Empowering Early-Stage Entrepreneurs · Hertfordshire Business School PG Research Symposium — 2026
Presented original research.

From Beginner to Builder · Build with AI x Hack Day, University of Hertfordshire — 2026
Speaker and hands-on session lead.

Build with AI & International Women's Day · Google Road Show, Imperial College London — 2026
Volunteer and community builder.

Google I/O Extended 2026 · GDG London — 2026
Attendee and community member.

Hacktoberfest Hack Day Hatfield & Luton x CTRL + Chat — Oct 2026
Hosted two in-person community hack days (Oct 21 and Oct 24) with Hacktoberfest, MLH and DEV.

LEADERSHIP & COMMUNITY

- **Co-Founder, Xtructure** — developer community; launched with a "State of Dev in 2026" founders panel.
- **2026 Ambassador, Thinking About Thinking** — responsible AI discourse; AE Global Summit on Open Problems for AI, London.
- **Aspire Leaders Program** graduate — Aspire Institute global leadership programme.
- **Student Representative**, School of Business, University of Hertfordshire (2025–2026).
- **Community Builder**, GDG London.
- **Host, CTRL + Chat** — tech interview podcast on Spotify.

SKILLS

AI & Research: Agentic AI, LLMs, voice AI, prompt engineering, applied AI research
Cloud & DevOps: Docker, Kubernetes, AWS, Terraform, GitHub Actions, Jenkins
Languages & Web: Python, Bash, JavaScript, React, Next.js, Tailwind, MongoDB, Firebase
Security: Network and cloud security, OWASP practices, threat analysis
